D.299

From: SD

APPROVED FOR RELEASE  
DATE: JUL 2004 7 April 45

Your D.285.

1. In order to clear up this question, please tell us how the codewords will be worked into the SWEDISH DANISH Broadcasts. We must definitely allot a series of codewords to 7496, but before doing so, it is essential to know what sort of word can be used in the broadcast and how 7496 is to identify it.
2. You will, of course, understand that the codewords must be selected by us in order not to clash with any existing arrangements for action signals.
